

Manual, Assembly instruction: Brodit 213520

Center mount, Extra strength mounting platform.

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before installing the mounting bracket. This mounting bracket consists of two parts:

1. Mount with mounting plate.

2. Locking block.

1. Remove the coin compartment by pulling it towards you.

2. Insert the mount with mounting plate into the space where the coin compartment used to be. Make sure the mount goes underneath the edge on the side.

3. Insert the arms of the locking block into the holes in the panel where the coin compartment used to be. Flip the locking block downward so the arms hook behind the panel. Slide the locking block towards you so the arms attach behind the panel and the hole in the locking block and mount align. Secure the mount by screwing together the locking block and mount, using the enclosed screw.

4. The mounting bracket is in place.
