

Manual, Assembly instruction: Brodit 213527

Center mount, Extra strength mounting platform.

Please read all of the instructions and look at the pictures before installing the mount.

1. Carefully, pull the parts of the mount apart until the mount reaches maximum length. Hook the angled edge on the lower part of the mount under the frame surrounding the air vent.

2. Press the thin end of the enclosed gap opener into the gap between the frame surrounding the air vent and the dashboard, to widen the gap. Press the angled upper edges of the mount into the gap next to the gap opener. Remove the gap opener.

3. Press the parts of the mount together until the mount reaches minimum length and hooks into place properly. Tighten the nut on the top of the mount so the parts are pulled together so the mount is firmly in place. Tighten the Allen screw with the enclosed key in order to fixate the position.

4. The mount is in place.
