

Manual, Assembly instruction: Brodit 213553

Left mount, High strength mounting platform

Please read all of the instructions and look at the pictures before attaching the ProClip. This ProClip will block the cup holder on the left side of the dashboard.

1. Use the enclosed gap opener to remove the cup holder.

2. Place the upper part of the ProClip into the cup holder opening and hook the angled edge under the dashboard. Press the ProClip forward and then press the lower part down into the cup holder opening. Pull the ProClip downward so the lower angled edge hooks under the dashboard and the mounting plate rests on the dashboard.

3. Tighten the four screws alternately so the ProClip is properly locked into place.

4. The ProClip is in place.
