INSTALLATION INSTRUCTIONS

Please read all of the instructions and look at the pictures before attaching the mount.

1. Place the mount into the desired position and choose matching bolts.
For narrower frames: use two bolts with two washers and two locking nuts.
For wider frames: use four bolts and two hex couplers.
 2. Screw the mount into place.
 3. Loosen the wingnuts and adjust the angles of the mount. Tighten the wingnuts so the faceplate is locked into the desired position.
 4. The mount is in place.
