

Manual, Assembly instruction: Brodit 313585

Center mount, Extra strength mounting platform ONLY for models with Panoramic Dashboard.

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip mount. It is important to install the mount first: any device holder + equipment is to be attached after the mount is in place. This mount consists of two parts: A mounting part and a mounting plate. 1. Use the enclosed alcohol pad to clean the area where the mount will be installed. Peel off the adhesive tape cover. Hook the angled edge of the mounting part behind the front edge of the dashboard. Pull the mount toward you so the angled edge hooks properly in place. Press the mount downward so the adhesive tape attaches on the dashboard. 2. Place the mounting plate onto the mount so the holes match. 3. Attach the mounting plate onto the mount with the included screws. 4. The ProClip mount is in place.
