

Manual, Assembly instruction: Brodit 635917

Console mount

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip. It is important to install the ProClip first: any holder & equipment is to be attached after the ProClip is in place.

1. Align the front edge of the mount with the edge of the coin compartment. Press the angled edge on the lower left part of the mount into the gap between the center console sidewall and the padded console frame.

2. Press the lower left part inward in the gap, to keep it in place. At the same time, rotate/ lift the upper right part of the mount over the padded console frame. Make sure to prevent contact between the mount and the padded surface until the angled edge is all the way over the console frame.

3. Hook the angled edge over the padded console frame. Press the upper and lower edges of the mount toward the center console so they are properly in place.

4. The ProClip is in place.
