

Manual, Assembly instruction: Brodit 736306

For fixed installation. With Easy-switching system. Charging via pogo pins. Fits for device with original boot with/without handstrap. 2,7A charging. 12/24V. 2 keys included.

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the holder.

1. Loosen the screw in the center of the holder so you can remove the tilt swivel attaching plate on the back. Place the attaching plate onto the desired position. Screw the attaching plate into place with the enclosed screws. Place the holder over the attaching plate so the screw fits in the hole in the tilt swivel and screw it into place. Tighten the screw so the holder is firmly in place, but still can be adjusted.

2. To place the device in the holder: Place the device over the holder and slide it straight downward into the holder. Slide the lock block downward into place on top of the holder. Press the button to lock.

3. To remove the device from the holder: Use the enclosed key to open the lock. Pull the lock block straight up in order to set the device free. Lift the device straight upward, out from the holder.

4. The holder is in place.
