

Manual, Assembly instruction: Brodit 835949

Console mount

Please read all of the instructions and look at the pictures before attaching the ProClip. It is important to install the ProClip mount first: any holder & equipment is to be attached after the mount is in place.

- 1.** Place the mount over the padded center console frame. Press the upper edge into the gap between the padded frame and the frame surrounding the cup holders.
- 2.** Pull the lower part of the mount out from the padded center console frame and hook the angled edge under the frame.
- 3.** Press upward on the lower part so the angled edge hooks into place properly.
- 4.** The ProClip is in place.
