

Manual, Assembly instruction: Brodit 835971

Console mount

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip mount. It is important to install the mount first: any device holder & equipment is to be attached after the mount is in place.

1. Use the enclosed alcohol pad to clean the area where the mount will be installed. Peel off the adhesive tape cover. Hook the top left part of the mount over the center console frame next to the cup holder.

2. Press downward on top of the mount. Press the right part towards the console sidewall until the lower edge hooks into the gap under the console frame.

3. Press on the mount so the lower edge is properly in place and the adhesive tape attaches properly.

4. The ProClip mount is in place.
