

Manual, Assembly instruction: Brodit 836012

Console mount

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip mount. It is important to install the mount first: any device holder + equipment is to be attached after the mount is in place.

1. Place the upper edge of the mount over the console edge. Slowly press the edge into the gap between the panel surrounding the cup holders and the padded console side so it is all the way into the gap.
2. Pull the right part of the mount out from the console and press it downward.
3. Hook the lower edge of the mount under the bottom edge of the padded console sidewall.
4. The ProClip mount is in place.
