

Manual, Assembly instruction: Brodit 836022

Console mount

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip. It is important to install the ProClip mount first: any holder & equipment is to be attached after the mount is in place. It is important to install the mount in the exact same position as shown in the pictures. This mount consists of two parts.

1. Press the thin end of the enclosed gap opener into the gap in the center console sidewall, to widen the gap. Hook the J-shaped lower edge of the mount into the gap next to the gap opener. Pull out the gap opener.

2. Use the enclosed alcohol pad to clean the area where the mount will be installed. Peel off the adhesive tape cover. Hold the face plate part over the center console frame so the holes match the holes in the lower part of the mount. Place the face plate onto the center console frame and attach the two parts together with the enclosed screws.

3. The ProClip mount is in place.

4. The ProClip mount is in place.
