

## Manual, Assembly instruction: Brodit 836062

Console mount

**Please read all of the instructions and look at the pictures before attaching the ProClip mount. It is important to install the mount first: any device holder & equipment is to be attached after the mount is in place. This mount consists of two parts.**

1. Place the u-shaped part of the mount under the center console frame and hook it around/under the padded frame.
2. Place the face plate over the center console frame, straight over the lower mount part.
3. Screw the parts together with the enclosed screws.
4. The ProClip mount is in place.
