

Manual, Assembly instruction: Brodit 836073

Console mount

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip mount. It is important to install the mount first: any device holder & equipment is to be attached after the mount is in place.

1. Carefully place the mount over the center console frame, without touching the padded surface. Hook the lower edge of the mount under the center console frame sidewall.
2. Pull the upper part of the mount outwards and upwards from the center console without the edge touching the padded frame. Hook the angled edge of the mount over the center console and the padded frame.
3. Press downward on top of the mount so the angled edge goes all the way into the gap.
4. The ProClip mount is in place.
