

Manual, Assembly instruction: Brodit 836094

Console mount

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip mount. It is important to install the mount first: any device holder + equipment is to be attached after the mount is in place.

1. Use the enclosed alcohol pad to clean the area where the mount will be installed. Peel off the adhesive tape cover. Position the mount next to the console frame so the upper edge is centered with the console accessories tray.

2. Following the angle of the mount, slide + press the mount downward. Hook the lower edge under the sidewall of the console.

3. Lift up on the top of the mount and hook it over the edge of the console frame. Press on the mount so the adhesive tape attaches properly.

4. The ProClip mount is in place.
