

Manual, Assembly instruction: Brodit 836187

Console mount

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip mount. It is important to install the mount first: any device holder + equipment is to be attached after the mount is in place. This mount consists of two parts: A mount and a faceplate.

1. Hook the upper part of the mount over the console edge, placed forward of the cup holders.
2. Press down on the top of the mount, and inward on the lower part of the mount so the lower edge hooks under the console frame. Press inward and upward on the bottom of the mount so the edge sits properly in place.
3. Place the included locking washer into the recess on top of the mount. Place the faceplate onto the mount. Adjust the faceplate into the desired angle. The faceplate may be installed for use by the driver or passenger. Attach the faceplate to the mount with the included screw.
4. The ProClip mount is in place.
