

Manual, Assembly instruction: Brodit 853358

Center mount

1.)

2.)

3.)

4.)

Attention! Please read all of the instructions and look at the pictures before attaching the ProClip. This ProClip can be placed anywhere within the width of the air vents.

1. Press the thin end of the enclosed gap opener into the gap between the coin compartment and the air vent frame, to widen the gap. Peel off the cover of the adhesive tape on the ProClip. Press the angled edge on the upper part of the ProClip into the gap next to the gap opener. Do not attach the adhesive tape yet, pull the lower part of the ProClip upwards so the adhesive doesn't touch the air vent frame.

2. Adjust the ProClip sideways into the desired position. Pull out the gap opener.

3. Press the gap opener into the gap between the air vent frame and the stereo/navigation system. Press the grooved edge on the lower part of the ProClip into the gap next to the gap opener. Pull out the gap opener.

4. The ProClip is in place.
