

Manual, Assembly instruction: Brodit 856087

Center mount

1.)

2.)

3.)

4.)

Please read all of the instructions and look at the pictures before attaching the ProClip mount. It is important to install the mount first: any device holder & equipment is to be attached after the mount is in place.

1. Use the enclosed alcohol pad to clean the area where the mount will be installed. Peel off the adhesive tape cover. Hold the mount by the right half of the right air vent. Hook the upper edge of the mount under the air vent housing.

2. Press forward on the bottom of the mount until the lower edge clips onto the air vent housing.

3. This mount can also be placed onto the left air vent, provided that the device you wish to install will not interfere with the view of the screen.

4. The ProClip mount is in place.
